## The Anatomy of Impact.

“VoiceOut 360 was built to solve a problem enterprises quietly struggle with every day—collecting authentic employee and customer stories at scale without losing quality, brand control, or momentum. Today, testimonials are scattered, inconsistent, and operationally painful. VoiceOut 360 transforms that chaos into a controlled, premium storytelling engine. It allows organizations to capture powerful video voices—branded, governed, and ready for reuse—across HR, marketing, sales, internal communications, and customer advocacy. This isn’t just a recording tool; it’s an enterprise platform for trust, credibility, and brand storytelling.”

CEO — John Sameh

**Scalable Programs**  
Launch, manage, and expand testimonial initiatives across teams, teams, regions, and brands without increasing operational complexity.

**Enterprise-Ready by Design**  
Purpose-built for large organizations with role-based access, access, compliance controls, and predictable performance at scale.

**Consistent Brand Impact**  
Every video follows the same visual, tonal, and quality standards—so your brand shows up strong and unified every time.

⚠️ Feeling Frustrated

# Enterprise video testimonials are broken.

Marketing teams are drowning in a chaotic sea of ad-hoc requests, unbranded raw footage, and disconnected folders.

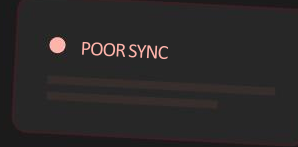

## Manual, ad-hoc collection

Endless email threads and Slack pings just to get a 30-second clip from a busy customer.

## Inconsistent quality

Poor lighting, bad audio, and vertical phone videos that destroy your premium brand image.

## No branded experience

Customer-facing request pages look like generic file drops, not your enterprise ecosystem.

## High coordination effort

Project managers spending 40% of their week just chasing approvals and scheduling recording sessions.

## Content scattered

Files lost in Google Drive, Dropbox, and local hard drives. Zero central visibility.

## No governance/tracking

Who gave consent? Is the license expired? Compliance risks are everywhere.

## Slow reuse

By the time you find the right clip, the campaign deadline has already passed.

FRAGMENTED ECOSYSTEM DETECTED

The traditional way is costing you more than just time. It's costing you your brand's authority.

# Video builds trust where **text** cannot.

## Higher credibility

Humans are wired to respond to faces and voices. Video content creates an immediate, visceral connection that static text simply cannot replicate.

## Authentic storytelling

Real emotions captured in real-time. No scripts, just pure customer advocacy.

## Stronger engagement

Viewers retain 95% of a message when they watch it in a video compared to 10% when reading it.

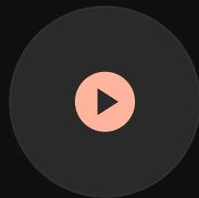

## Increased conversion

Video on landing pages can increase conversion rates by over 80%.

## Stronger employer brand

Attract top talent by showcasing your culture through the voices of your employees.

### Experience the Power

Watch the impact of VoiceOut 360 in action.

## Sharing all through the "Wall"

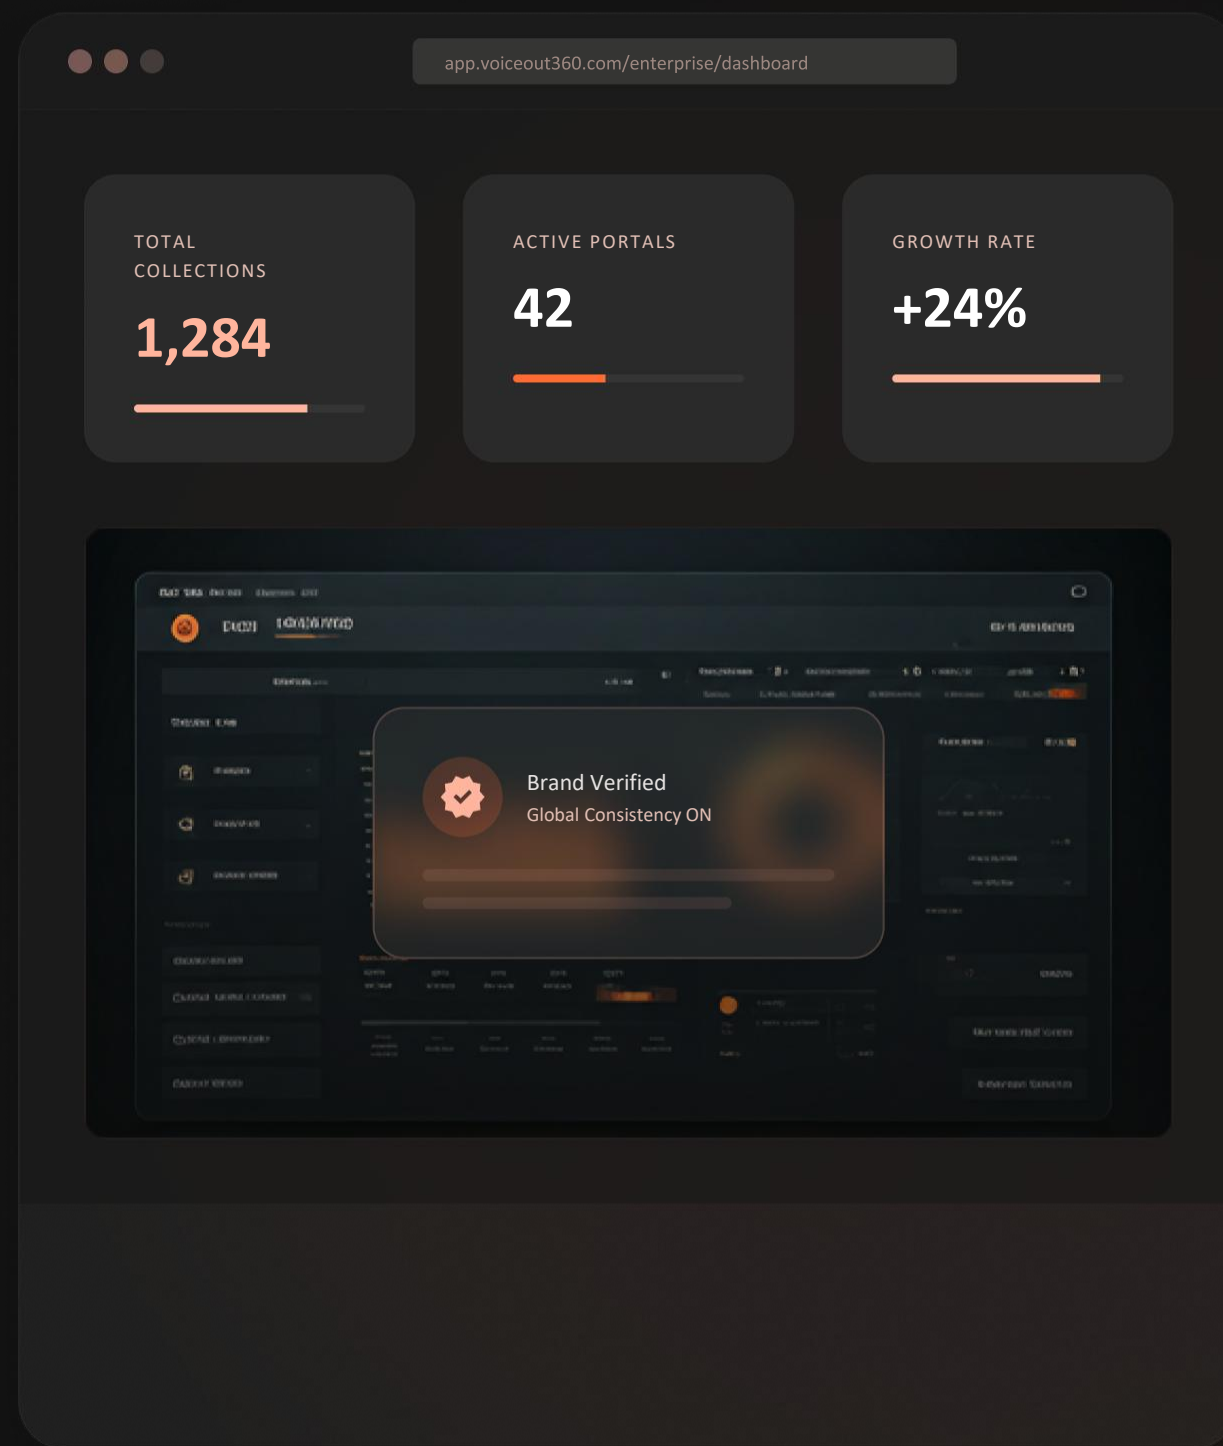

Get all your campaign testimonials on one interactive wall, that can be fun be fun and shared on your different platform
